- (d) Power to be developed is \_\_\_\_\_ horsepower.
- (e) Place of use \_\_\_\_\_  
Give location of place of use by legal subdivision
- (f) Point of return of water to stream \_\_\_\_\_  
Describe in same manner as point of diversion
- (g) State number and kinds of animals to be watered \_\_\_\_\_
- (h) Use will begin about \_\_\_\_\_ and end about \_\_\_\_\_, of each year.  
Month Month
- (i) Remarks \_\_\_\_\_

# DESCRIPTION OF PROPOSED WORKS

A well will be drilled to the necessary depth to reach an adequate aquifer. The well will be cased according to required specifications. State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions. for the L. V. Artesian Basin; a pump and pressure system installed if needed.

5. Estimated cost of works \$500.00 to \$1,000 for surface equipment if necessary besides cost of drilling and casing well.

6. Estimated time required to construct works 4 to 6 weeks.

7. Remarks Mr. Jamieson has recommended that I apply for this permit under Quasi-Municipal and domestic use, and recommended the 0.04 C.F.S. as the proper quantity of water to apply for.

/s/ Wm. Boyd, Applicant.

William Boyd.

**FORFEITED**

ORDER NO. By Letter  
DATE MAY 13 1997

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 0.04 c.f.s. If well is flowing, a valve must be installed and maintained to prevent waste. It is understood that this right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. This source is located within an area designated by the State Engineer pursuant to Section 4 of the 1939 Ground-Water Act (Chap. 178, Stats. 1939 as amended); therefore the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.04 cubic feet per second.

Actual construction work shall begin on or before January 21, 1954

Proof of commencement of work shall be filed before February 21, 1954

Work must be prosecuted with reasonable diligence and be completed on or before January 21, 1955

Proof of completion of work shall be filed before February 21, 1955

Application of water to beneficial use shall be made on or before

January 21, 1956. Proof of the application of water to beneficial

use must be filed with State Engineer on or before February 21, 1956
